2002/03 EXPENDITURE ESTIMATES

PREFACE

This document produced by the Department of Aboriginal and Northern Affairs serves as a supplement to its printed main estimates. It is intended to provide background information on the department to complement that already contained in the printed main estimates.

The contents of this supplement are organized into three parts. The first part provides an overview of the Department of Aboriginal and Northern Affairs' 2002/03 budget requirements. The second part provides financial analysis including details of staffing requirements and expenditures. The information is organized on the basis of existing main appropriations so that it will provide an easy cross-reference to the printed main estimates. Part three provides a five-year historical budget comparison.

This document has been developed to assist members of the legislature in their review of the printed main estimates. I welcome feedback as to the usefulness of this supplementary information.
